

# MEXICO WRESTLES WITH NEW REVOLT

### Minor Outbreaks Reported in Coahuila; Also Between Tampico and Monterey

## ARREST GENERAL CORDENA

By the Associated Press  
 Washington, July 7.—Revolutionary movements in various parts of Mexico were reported in advices received at the State Department from American officials in that country. The movements apparently are unrelated and of minor importance, but are being carefully studied by department officers.

Consul Blocker at Piedra Negras telegraphed that General Ricardo Gonzalez, a nephew of General Pablo Gonzalez, with a force estimated at between 50 and 200 men, had revolted against the present government, cutting the lines south of Monclova, Coahuila, on July 4, and advancing as far north of Berroterran, where they are now located holding coal mines. Federal General Morales left Piedra Negras last night with 200 soldiers to attack the revolting force. Another federal column is reported to be advancing from Saltillo.

Advices from the American consul at Tampico stated that it was officially acknowledged there that General Carlos Osuna and General Larrabee Agadir were in rebellion. General Osuna is reported to be between Tampico and Monterey and General Agadir on the San Luis Potosi line.

There also were reports at Piedra Negras that General Jesus Guajardo had revolted at Gomez Palacio, near Torreon, with 300 men, and had advanced toward the American border over the old Mexican International Railroad line.

General Porfirio Cordena, who was

appointed military governor of Coahuila by General Pablo Gonzalez during the revolt at Mexico City, and who was replaced by the Obregonista governor, General Luis Gonzales, is reported to be under arrest at Piedra Negras.

Fernando Lera has been appointed Mexican minister to Sweden, Norway and Denmark, the State Department was advised today, and will proceed to his post by way of the United States.

Mexico City, July 7.—(By A. P.)—Elias L. Torres has left Mexico City after a conference with Provisional President De La Huerta relative to an armistice agreement between the government and Francisco Villa, the rebel chieftain, who is operating in western Chihuahua. He is on his way to Villa's headquarters with the government's decision.

The armistice to which Villa agreed would extend until July 15, if accepted. In addition, Villa has promised not to attack trains, garrisons or villages until after the date the armistice would expire. Conditions for permanently abandoning warfare against the government also have been laid down by Villa.
